

# GLOBAL GRANTS COMMUNITY ASSESSMENT RESULTS

Use this form to report community assessment findings to The Rotary Foundation when you apply for a global grant.

Assessing the strengths, weaknesses, needs, and assets of the community you plan to help is an essential first step in designing an effective and sustainable global grant project. See [Community Assessment Tools](#) for full instructions and helpful tips.

This form will help you report the results of your community assessment, and it's required when you apply for any humanitarian or vocational training team grant. Complete a separate form for each beneficiary community (e.g., school, health care system, or village), using information that is both current and specific to each community. Remember, you can't use global grant funds to cover the cost of doing an assessment, but you can use district grant funds.

Beneficiary community or institution

Saint Georges Hospital University Medical Center – Achrafieh Beirut

Groups in the community that would receive a clear, direct, and immediate benefit from the project

Delivery and nursing of neonatal and newborn

Beneficiaries' demographic information, if relevant to the project

Achrafieh Beirut Area

1. Major Medical Equipment
- 2.
- 3.

**List any needs you identified that your project would not address.**

1. Major Thecnical installation and emprovement
2. Medicin
3. Furnitures

**List the community's assets, or strengths.**

1. Every Thing is in need

2.

3.

Considering the needs and assets you listed, explain how you determined the project's primary goal.

As the president of the RC Hammana – upper metn of this year passed away in the lobby of the hospital by the devastating explosion of prort Beirut and the huge demolition of the hospital and we determine to prepare this project as if some body left we will help a new life to be born safe.

How would your project's activities accomplish this goal?

The new equipment will help to rebuilt the two departments delivery and nursing the neonatal and newborn in a safe way.

What challenges have prevented the community from accomplishing the project's goals?

All the chalanges on the ground after the explosion

How is the community addressing these challenges now?

They are expecting to reconstruct and operate the medical services of the Hospital

Why are the project's activities the best way to meet this community need?

Because they need every help possible
